## SUMMARY

As an aspiring front-end developer, I am proficient in HTML, CSS, JavaScript, ReactJS, Redux, NextJs, Nodejs, Expressjs, PostgreSQL, Tailwind CSS, and SCSS. I am passionate about designing and developing user-friendly and visually stunning websites using these technologies. With a strong commitment to continuous learning and keeping up with the latest industry trends, I am confident in my ability to deliver high-quality results and exceed expectations.

## TECHNICAL SKILLS

ReactJs

Redux

NextJs

JavaScript

HTML

CSS

Bootstrap

Tailwind CSS

SCSS

Git

GitHub

NodeJs

ExpressJs

AWS S3 Bucket

PostgresSql

Webflow

Calendar API

## EXPERIENCE

07/2023 - Present

Mumbai

### Programming Associate

**peopleHum**

#### Partner Portal Project Accomplishments

- Developed the backend infrastructure using Node.js, Express.js, and PostgreSQL, ensuring high performance and data integrity.
- Optimized file management with AWS S3 and Redis, while integrating a calendar API for efficient call scheduling.
- Delivered the partner portal project 2 weeks ahead of the original 2.5-month deadline.
- Collaborated on the live project's frontend using Webflow to implement and enhance small features.

## PROJECTS

### CineMagic: A Movie Rating Website

🔗 <https://cinemagic-website.netlify.app/>

Movie rating website, where you can see all the details about movie.

- **Tech used:** ReactJs, Redux, SCSS.
- **Key features:** View rating, see movie details, search movies.
- Used lazy loading, select, infinite scrolling libraries.
- Users can search any movie or tv show.
- It is responsive on all the device.
- GitHub Link: [Click here](#)

### YouTube Clone

🔗 <https://youtube-clone-websites.netlify.app/>

Youtube Website Clone, where you watch youtube and see related videos.

- **Tech used:** ReactJs, Redux, Tailwind CSS, Rapid Api (youtube)
- **Key features:** watching videos, showing related videos and search page.
